

2021 Access Plan

OVERVIEW
<p>A preferred provider benefit plan must include a health care service delivery network that complies with Insurance Code §1301.005 and §1301.006 and the network adequacy requirements described in TAC § 3.3704, such that the distance from any point in its designated service area to a point of service is not greater than: 30 miles in non-rural areas and 60 miles in rural areas for primary care and general hospital care; and 75 miles for specialty care and specialty hospitals.</p>
<p>Requirements: TIC § 1301.005, TIC § 1301.006, TAC § 3.3704</p>
<p><i>The following description of ICSW's processes and procedures for addressing network deficiencies applies to all specialties and counties; it is entered in this section to avoid repetition in each section below:</i></p>
<p>Insurance Company of Scott and White (ICSW) has active policies and procedures in place that enable members to utilize authorized services as in-network, in all counties and for all specialties/services, where the network is inadequate or lacks freedom of choice. ICSW then negotiates a Letter of Agreement with the out-of-network provider to ensure the member receives in-network benefit coverage. Covered member is not balance billed and/or penalized by ICSW for any specialty/service that is identified in an area that does not have a required provider specialty for the covered member. Covered member will not be penalized or denied care for other benefits due to network inadequacy or lack of freedom of choice.</p>
<p><i>In accordance with 1301.005(b) and 28 TAC 3.3708 (b), when services are rendered to an insured by a non-preferred provider because no preferred provider is reasonably available, and the non-preferred provider does not agree to an LOA, ICSW will:</i></p>
<p><i>in addition to any patient coinsurance, copayment, or deductible responsibility under the plan; credit any out-of-pocket amounts shown by the insured to have been actually paid to the non-preferred provider for charges for covered services that were above and beyond the allowed amount toward the insured's deductible and annual out-of-pocket maximum applicable to in-network services.</i></p>
<p>ICSW leadership continually evaluates the adequacy of the provider network through various means such as the Network Issues Committee that meets once per month, monitoring concerns and access issues from Members and other providers, and business expansion strategies. ICSW negotiates single-case agreements and letters of agreement to assist with gaps in coverage in areas where there is a lack of providers, especially in rural areas. ICSW includes the following hold-harmless language in its single case agreements and letters of agreement, to ensure that members will not be balance billed for services by out-of-network providers when the provider network is inadequate:</p>
<p>“Provider hereby agrees that in no event, including, but not limited to non-payment by ICSW, insolvency, or breach of this Agreement, shall Provider charge, collect a deposit from, seek compensation, remuneration or reimbursement from, or have any recourse against Member or any person or persons acting on her behalf for Services provided pursuant to this Agreement.”</p>
<p>The procedures described above for evaluating network adequacy are followed to ensure that the required providers and specialties are reasonably available and accessible to ICSW Members to provide the full range of benefits under their insurance policy.</p>
<p>In accordance with 28 TAC §3.3704, the EPBP provider list (provider directory and/or online directory) includes individual provider(s) listed many times at several different addresses; for availability and accessibility of care within the service area, an individual provider that the EPBP listed numerous times, can adequately serve the enrollee population when they have multiple practice addresses because many of ICSW contracted group's employee physicians that rotate between practice facilities. For example, Provider A works at location 1 Monday thru Wednesday and then Provider 2 works at location 1 Thursday thru Sunday. For hospital based provider groups, ICSW is contracted with groups that consist of 30 or more providers that rotate between 5 or more hospitals in order to ensure each hospital is covered 24 hours a day, 7 days a week.</p>
<p>The EPBP has repeated providers on our provider list that are practicing within a group/company that has multiple locations (i.e. large clusters of providers listed at the same addresses). The contracts for these sites are at the group level but some are individually contracted providers. Contracting duties are not delegated. There are times that ICSW delegates credentialing if the group has at least 100 providers and the group does the credentialing of their own providers. A pre-delegation assessment is completed to ensure the group follows the same regulatory standards as ICSW. All contracts are evergreen and auto renew.</p>
<p>In accordance with 28TAC §3.3705 (12) a current list of providers and complete descriptions of the provider networks, including names and locations of physicians and health care providers, and a disclosure of which providers will not accept new patients must be included, this can be found at: https://portal.swhp.org/#/search</p>

County (whole or part)	Provider type	Reason Network Providers Not Available	Access Plan
Val Verde	Acute Care Hospitals	Are not available to contract;	Any non-participating provider within TDI mileage requirements will be paid at the in-network benefit level as specified in the <u>Texas Administrative Code</u> .
Brewster	Acute Care Hospitals	Are not available to contract;	Any non-participating provider within TDI mileage requirements will be paid at the in-network benefit level as specified in the <u>Texas Administrative Code</u> .
Reeves	Acute Care Hospitals	Are not available to contract;	Any non-participating provider within TDI mileage requirements will be paid at the in-network benefit level as specified in the <u>Texas Administrative Code</u> .
Hudspeth	Acute Care Hospitals	Are not available to contract;	Any non-participating provider within TDI mileage requirements will be paid at the in-network benefit level as specified in the <u>Texas Administrative Code</u> .
